THE BRAZILIAN PAVILION AT THE EX.

THE RUSSIAN BEAR AND THE ALLIED EAGLES THREATEN POOR SWITZERLAND.

THE BRAZILIAN MINISTER TO PORTUGAL.

Paris, 15th—The Brazilian Pavilion in the Exhibition was opened yesterday. President Carnot, Premier Tirard and several members of the Diplomatic Corps were present.

London, 15th—Advices from Berne state that the Russian, German and Austrian Governments have addressed energetic remonstrances to the Swiss Government against the protection afforded by it to anarchists, who frame fresh plans against their respective countries.

Lisbon, 15th—The new Brazilian Minister has been received with great pomp, and the speeches were most cordial.

SAMOAN QUESTION SETTLED.

London, 13th—Germany and Austria have advised Switzerland to deal severely with anarchists and socialists.

Berlin, 13th—The American commissioners at the Samoa conference have just received fresh instructions from Blaine on the subject of the protocol that has been drawn up. They oppose certain articles; and it appears that England and Germany have not conceded enough in regard to the rights of the United States. As Blaine has not yet decided upon the policy to be followed, the commissioners maintain their attitude, and things are in "statu quo."

Washington, 15th—They say here that all is going on right in Berlin in regard to the Samoan conference. But no one can explain why the Kearsage has been ordered off to Hayti. In the war-office they say things are not so bad on the island.

Paris, 13th—Deputies Laguerre and Laisant have protested against their arrest as an attack on the inviolability of the Chamber.

The Panama canal difficulties are being considered by the Government. The report of the liquidator has been published, and the Government are preparing to send a Bill to the Chambers.

Chicago 15th—A telegram last night from Superior, Wis, announces that the southern and western forests, from St. Croix to Northern Pacific Junction, are on fire, and it is estimated that already half a million dollars worth of timber is lost.

London, 14th—The *Times* correspondent in Constantinople says that the advices there from Vienna are to the effect that Austria has informed Russia that she regards the hostile attitude of the Regents of Servia as a "casus belli," and trusts that European diplomacy will succeed in restraining it.

Vienna, 14th—It is known that Russia is making great preparations for war at an early date, and is storing enormous quantities of forage along the Western railways. Orders for four million pair of boots, to be delivered within two months, have been issued. A great increase in the artillery is intended. General Gourko has proposed the laying of a new line of fortifications in Poland, to cost 25 million roubles. The works will be commenced at once at Warsaw.

Ottawa, 14th—Lord Salisbury has summoned Sir John McDonald to London, to discuss the strained relations between Canada and the United States. Sir John will probably leave in August.

Edinburgh, 15th—The Lord Provost has refused to confer citizenship on Parnell, so the magistrate next in seniority will officiate.

London, 15th—The Vulcan was launched at Portsmouth to-day. She is a steel torpedo store-ship to accompany a fleet with a number of torpedo-boats on board. She is also a floating workshop, with hydraulic machinery for lowering and raising torpedo-boats. She is 6,620 tons displacement: 2,000 horse-power.

Washington, 15th—Yesterday evening the Samoan Convention between England, Germany and the United States was signed in Berlin. It will not be published till confirmed by the Senate.

CASEY TRIUMPHANT.

OBRAS GOING UP AGAIN.

(From our own Correspondent)

Saturday evening.

After a fierce battle of three days on the Bolsa, where 40,000 shares changed hands, the bulls, headed by Mr. Casey, have won the day, and the shares are now firm at 102.

A thousand National Bank Shares have been sold for end of year at 200 by Mr. Diaz Falcon, buyer Mr. Casey.

The negotiation of the "caucion" of 40,000 National Bank Shares by Baring Bros. in London will probably be effected before Tuesday, in which case the bears will again be driven back and the stock run high in the alleviated market.

THE HARD DOLLAR LOAN.

The decree of the Minister of Finance respecting the Hard Dollar bondholders took the whole market by surprise: not that merchants were ignorant of the pending arrangements or of the interviews Mr. Anderson, manager of the London and River Plate Bank, held with the Minister on the subject, but the suddenness of the decree and the withdrawal of all option to holders to amortize, or to exchange, places many of the holders in a rather awkward position. There are large amounts of these bonds on the way out to be delivered to the Government on July 1st, and both gold and cedulas have been bought in anticipation, as some holders directed the gold to be remitted to Europe, and others to invest the proceeds in national cedulas; but now, by the Minister's decree, all these operations have to be undone, and hence gold fell to-day nearly three points, and large sales of cedulas were effected at slightly lower rates.

It may be remembered that, last month, when Mr. Anderson had an interview with the Minister, he, on behalf of Messrs. Stern Bros., London, one of the largest holders of the loan, offered to exchange the Hard Dollars for 4 per cent gold bonds. The Minister offered 3 per cents, if five millions were tendered. Now, however, since the meeting of bondholders in London, (of which we give a précis at foot,) terms have been come to, and the Government has advanced half a point and the holders receded half a point, which would be all very well and most satisfactory had the Minister's decree left it optional with holders to exchange or not. But Mr. Varela has gone even beyond the aspirations of the bondholders, and his decree amounts to a repeal of the law. The effect is, of course, most favorable to this market, since it frees the Government from the payment of close on thirteen millions national dollars paper, which, had the Minister paid it out, would be largely used in buying gold or exchange to remit to Europe. Thus, in one sense Mr. Varela has not only carried his point, but made a most admirable hit for the market. On the other hand, he exposes very many of the bondholders to great expense, owing to the shipment of the bonds and gold purchases in anticipation.

As regards the gold purchases, we think holders will suffer no loss, as the gold can probably be resold at a premium higher than they paid for it; but, as regards the purchases of cedulas in anticipation, their resale may entail loss, and one lot of series D, some 70,000, were thrown up to-day and resold in consequence of this decree.

We have but to remark that there is a certain severity and quickness about the decree which appears to be a characteristic of Minister Varela. All his decrees are pretty much of the same flavor, and possibly had H. E. left it optional with the holders to amortize or not, the investing public would have been better pleased with the measure.

The decree, as it stands, amounts to a new 3½ per cent gold loan, done by the Government without the interference of banker or agent, and greatly calculated to improve our exchange and money market.

The following is a summary of the Hard Dollar meeting held in London. Many of the remarks of the chairman read funny in the light of this decree and of the arrangement which the bondholders themselves have come to with the Minister:—

A meeting of holders of bonds was held at the office of the Council of Foreign Bondholders, 17, Moorgate Street, E.C., on Thursday last, the 16th ult:—

The Right Hon. E. P. Bouverie, the Chairman of the Council, presiding,

for the purpose of considering what steps should be taken, and authorising the Council to take such measures as might be deemed necessary for the protection of the Bondholders in consequence of the impending redemption of their bonds in the forced paper currency of the Republic.

The Chairman said—Ladies and gentlemen, you have heard the notice read, stating the objects of this meeting. The attention of the council here was called to what was a matter of public notoriety—the proposal of the Argentine Government to pay off a number of what are called hard dollar bonds in a very short time, and in a very highly depreciated paper. A great many holders were under the impression that the bargain they had with the State was that they should be paid off, if they were to be paid off at all, in cash and not in paper, which might be worth very little—(Hear, hear). In consequence of the applications that were made by individual bondholders here we issued a notification that we were prepared to take such steps as we might be best advised to take in vindication of what seemed to be the rights of the bondholders, if we had the concurrence and support of a considerable number of bondholders. I am able to say that the holders of considerably over two millions of dollars of these bonds have sent in their adhesion to the steps we propose to take; and as the total amount of these hard dollar bonds held in this country is estimated to be only about 13 millions, and as the notice was only given about a fortnight ago, you see what a very large portion have come in, and are anxious for some combined action to vindicate their rights against the Argentine Government. As we often have reason to know here, bondholders are a long suffering race. They are very often as sheep without a shepherd, but we endeavour occasionally to shepherd them here—I hope to their advantage. Well, they submitted to payment of interest in paper, when of course the paper was only slightly depreciated; and it was not worth while to make much fuss about being paid in paper, when the paper was almost equivalent to cash. But when States begin to pay in paper, there is an unfortunate tendency for paper to become more and more common, and for cash to become more and more scarce. What has happened is this—that with regard to these hard dollar bonds, the State has resolved by a recent law that they are to be paid off in a very short time, and the Vice-President of the State has announced that these hard dollar loans are to be paid off in three instalments—one on the 30th June next, a very short notice; another on the 30th Sept. next; and the last on the 31st December, and in paper which is very greatly depreciated—("Shame"). I believe the premium on gold is now something like 45 per cent. (Voices: "57½; 60"). Of course, it goes on increasing. It seems to me that the Argentine Republic would be very ill advised, looking at their position, and their great financial obligations, if they were to take an extreme view of what they consider their rights in this matter, and attempt to impose this very hard burden upon yourselves, even if they could contend that what they had been doing was legal, which we are advised they cannot. I venture to submit to you, and I likewise desire to urge upon them, that it would be most inexpedient on their part, having due regard to the financial credit of their State, which is prospering and going ahead with remarkable rapidity, to give a shock to their credit, and create doubt and distrust as regards their securities in the minds of people who hold such securities in this great money market of the world, London—(Hear, hear). I think if it was duly represented to them, that a large body of their creditors, with a grievance such as this, were protesting strongly against the step which has been taken, if we stated that you were taken by surprise at what has been thrust upon you in this way; if we were to protest against it, and urge the Government to come to some reasonable compromise, if they can hit upon a fair compromise of your demands upon them; if they could be brought to listen to it, they would be best consulting, not your interest only, but their own interests as a great State, in endeavouring to come to some such arrangement—(Hear, hear).

The first lesson these South American States had to learn was that the basis of their progress and prosperity must be founded on the observance of the laws of credit and due respect to the just and reasonable claims of their public creditors. I may add that we have thought it desirable to take the advice of one of the most eminent jurists of this country, skilled in foreign law, and he has given us a distinct opinion that this claim of the Argentine Government is an illegal one, and contrary to their own engagements. I think, armed with such an opinion as that, and armed also with the arguments I have indicated to you thus briefly, if you are disposed to authorise the Council to act for you in this matter, we should go with a very strong and urgent case to the Argentine Republic, and represent to them that it was absolutely essential that they should revise their decision in the matter, and come to some reasonable terms with you. There is no time to be lost. I have told you how early the day is when it is proposed to pay off the first instalments of these bonds. A bond once drawn to be paid off there will be no interest remaining against them, so that there is not much time to be lost. What I am going to ask you to do is to pass a general resolution authorising us to protest in your name against the decree, and asking us also to take such steps as we may be advised to protect your rights, and then a further resolution that, if necessary, we should be authorised to call in the bonds to negociate and arrange on your account, and if need be, to appoint a committee. But that may be a matter of subsequent arrangement, which may arise after the step is taken. All I can say is gentlemen, that if this commends itself to you, I think the Council, having over $2,000,000 of bonds at their back, will be able to speak with a pretty loud voice in the matter, and will be able to indicate considerations to the Argentine Government, which will make them pause before they persist in this step which they propose to take. I shall therefore take the liberty of moving:—

"That this meeting of holders of bonds of the Argentine Hard Dollar Loans of 1872 and 1874 respectfully protest against the decree of the Government for forcibly redeeming the bonds of these loans in paper currency, and requests the Council of Foreign Bondholders to take such steps as they may be advised to protect the rights of the Bondholders," carried.

PUBLIC BATHS.

Cleanliness, they say, is next to godliness, and if such be the case, a special providence must provide for the success of all companies started to supply people with ample bathing comforts and accommodation. Of all the nations recorded in history none came near the Romans, in, or out of Rome, in the splendour and general use of the public bath. Nowadays in this regard, as, perhaps, in others, the mantle of the Cæsars has fallen on the shoulders of the British people, who, of all modern nations, are the most addicted to the "tub" or bath. In this country bathing institutions are still in their infancy, and in this city the public bathing accommodation is quite inadequate to meet the wants of a population of half a million souls, a population that is daily increasing at an amazing rate, faster than any other city in the world.

To meet these requirements, Colonel Gaudencio, whose name is connected with the famous bathing establishment of Montevideo, the finest of the kind in South America, has started a joint-stock company, with a capital of eight million dollars. One-fifth of this capital is already subscribed. The remainder is offered from to-day to the Buenos Aires public, and we sincerely believe that no sounder investment, with better prospects of steady and great returns on capital, could be offered to investors. Although in another column our readers will find full particulars of the company, we cannot refrain from calling their attention to the principal features of a scheme that will confer a great boon on the community at large and offers excellent guarantees to capitalists. To all intents and purposes the new bathing company is not only a financial concern in which shareholders are interested, but a public institution in which one and all must take an individual interest.

The new bathing company has obtained from the municipality a concession of four blocks of ground fronting the Paseo Julio, between calles Callao, Ayacucho and Junin, covering in the aggregate an area of 51,000 square metres: part of this land must be reclaimed from the river. The municipality, alive to the great merits of the enterprise, ceded the land for 80 years, free of all charge and free of all taxation. After that term, lands and buildings go back to the municipality without any compensation or charge. The enterprising concessionaire has also secured for the company seven blocks of ground, at $17 per metre, from the public company which is started to reclaim all the land in front of the baths. Thus the company starts on land which costs nothing or next to nothing.

Two blocks will be devoted to baths comprising four enormous swimming-baths of 90 metres in length by 26 metres width each; these will be supplied with fresh and salt water water, constantly renewed from artificial cascades. The salt water will be conveyed from some point of the coast by iron pipes; this salt water will be pumped up on the coast into a high tank and the pressure will drive the briny liquid to the baths in a constant flow. Before two years these baths will be completed, and we think that the company may look forward to ten thousand bathers daily in the summer months. This will be an immense boon to the population, as fresh water, salt water, Turkish and medicinal baths will be supplied; all the medicinal waters of the country will be available, and invalids need no longer travel to the Andes or Tucuman for relief. Another great benefit is that the baths will be thrown open twice a week to the public gratis, and furthermore the charges of the 2nd class swimming baths are fixed at 10 cents, within the reach of the poorest.

Bathing, though in our eyes the leading feature of this new company as well as the most profitable in prospect, is not the only business side of the scheme. The concessionaire has drawn up the plans of 350 houses, the general façades of which will be an ornament to the city. All these houses will be provided with electric light, water, and "basura" service, and the company count on an average rent of 100 m/n per house which will be much under the reality. Taking into consideration the position, the services of the company in the supply of light and water and removal of refuse, and last, not least the accomodation and size of each house, according to the plans we have seen, 50 o/o may be added to the rent estimate of the concessionaire.

Half a block will be devoted to a public market under special supervision of the company: another half block is devoted to the electric light machinery and refuse service. One block will be turned into a park, with a theatre or circus, coffee-houses, restaurants, with fine chalets at the four corners. In fact, when fully launched and in working order, the company will have in hand quite a small town and one of the finest bathing establishments in the world. The architecture of the buildings will be varied: each façade will be homogeneous and in the plans we have seen gives an idea of a fine public monument like the Government house in the Plaza Mayo.

All this is to be carried out with eight million dollars. When Colonel Gaudencio started the idea last year, we laughed at it, but to-day it is probable and plausible, and we consider the business a sound one, and if conducted by such an experienced man as the gallant colonel, who has identified himself with public baths, great results may be expected. The concession is most valuable: the money is sunk in a splendid investment, and with the growth of this city nobody can tell to what proportions the business of the company may stretch. Good, reliable men are at the head of the company and are a guarantee to the public that the scheme is sound and promising.

LATEST FROM BRAZIL.

OURO PRETO'S SPEECH IN THE CHAMBERS.

REPUBLICANISM IN BRAZIL.

Rio, 14th.

Viscount Ouro Preto, President of the new Ministerial Council, said to-day in the Chambers:

Gentlemen:

The August Emperor- Chief of the State, informed me, in the course of my last interview, that, owing to the unwillingness of my noble predecessor to form a Cabinet, he had decided to entrust me with the task, but he first desired to know what I thought of the situation. Thanking his Majesty for this mark of confidence, I replied: "Your Majesty will have observed that in certain provinces a very active propaganda is being made to change the present form of government. This propaganda is the forerunner of serious evils, because it exposes the country to the grave inconvenience inherent to the adoption of institutions for which we are not prepared, which are not suited to us, and which cannot make the happiness of the nation.

"In my humble opinion it is not prudent to despise or ignore this movement of false ideas, and we must endeavour to nip it in the bud. For this we must refrain from using violence. Let us shew practically that the present system of government is sufficiently advanced to admit the consecration of the most advanced principles, to satisfy all the exigencies of public reason, to consolidate liberty, and produce the prosperity and greatness of the country.

"Without necessarily disturbing the peace which we have enjoyed for so many years, we can bring about those results, not by means of violence or even severity, but by adopting firmly and bravely vast measures of reform, which we shall draw from the fountain of democracy. These reforms must not be of a palliative nature, for then they would be barren of result. What would be sufficient to-day would be little to-morrow. In the meantime we are confronted with an urgent necessity."

His Majesty then asked me what measures I proposed. I replied that they were included in the political programme, approved by congress of the Liberal party, which met recently here, and of which I was one of the principal promoters. The cardinal ideas embodied in that programme are:

Extension of right to vote, the sole essential condition being a knowledge of reading and writing, and with the ordinary restrictions.

Enlargement of the ten electoral districts.

Autonomy of municipal districts and provinces. The essential basis of this reform is the election of the municipalities and the Government of the Provinces. Special laws should be passed, fixing the term of office of these functionaries, the cases in which they may be suspended, and the intervention of the central or head Government.

The right of meeting, and freedom of worship.

Requisite measures for absorption of foreign elements in the country, and stimulation of immigration.

Extension of power to Senate.

Reform of the State Council, stripping it of its political character.

Free-trade.

Maximum reduction of export-dues.

Land-laws facilitating its purchase without violating right of owners.

Reduction of freights.

And finally

Opening and fomenting of credit-establishments to stimulate trade and industry.

In a tone of deep respect and in all candor I declared to the Emperor that I, as a party man, could not accept the premiership of the cabinet unless on the understanding that I should be free to carry out the programme of my party, and I added, that as it would be impossible to initiate all the sereforms at once. it would be necessary to allow full liberty to the members of the party entrusted with the different branches of Government.

I may mention among other ideas embodied in our programme the following:

A Civil Code; conversion of our foreign debt; paper-money; equilibrium in the budget; opening of banks of issue and credit.

His Majesty, I am happy to say, fully concurred with me, and authorized me to immediately form a cabinet.

Railway Items.

ECHOES FROM THE GOVERNMENT OFFICES — A RAILWAY STATION IN PAYSANDU. NEW RAILWAY TO LA PLATA.

Engineer Cornu has been appointed to replace Mr. Roncioni as national inspector in Cordoba.

A letter was sent yesterday by the Engineers' Department to the manager of the Central Entre-Rianos, urging him to strain every nerve to place the line in working-order. Mr. Figuerca requires very little urging.

The same department has drawn up a full report of the derailment at kil. 45 on the Central Northern, in which accident the fireman was very gravely injured.

The gross returns of the Ensenada Line last April amounted to 120,197 dollars.

Mr. Brown has decided to run the 12 p. m. Sunday train as far as the Tigre, stopping where necessary. This innovation will come into force after 23rd inst.

Our Montevidean contemporary, the *River Plate Times*, which appears to be always well posted in Paysandu news, has the following:—

"The Midland Uruguay Station in Paysandu is now completed. The offices of Messrs. James Perry & Co. have removed into them. Large workshops are being constructed, engine and carriage depositss also large warehouses. The whole building will cover over four squares of ground and will be replete with every necessary for the working of over 300 kilos. of railway."

In connection with the erection of the station our contemporary calls attention to the tremendous boom in the value of land in the neighbourhood. Some owners ask 5,000 dollars per square, that is at the rate of 8 millions the square league. It is curious that the very same price has been asked for land in a somewhat distant part of our republic. A preserving meat company, in course of formation, applied a few days ago for 100 squares of the best located land on the Bay of San Blas, and the owner gave his price—$5,000 per square. This shews how valuable land is growing near ports and railway stations. Fabulous prices are demanded, and in nine cases out of ten accepted, the purchasers having the assurance that in a few years the valas, will double and amply repay them for their enterprise and pluck.

Telegrams from Santa Fe yesterday announced that the Provincial Senate unanimously threw out the Granel railway-project, owing to the applicant having demanded a guarantee. The project was for a line in the south of the Province.

Advices from La Plata yesterday announced the approval by the Deputies of Messrs. Paultron and Botet's project to build a network of railways, with the following branches:

1—From kil. 10 to Altamirano.
2—From Altamirano to Haedo.
3—From Altamirano to Junction (Rauch).
4 From Rauch to Dolores.
5—From Rauch to Tandil.
6—From Rauch to Azul.

The Minister of the Interior has addressed a note to the Commissioners charged to draw up a general plan of railways for the Republic, begging them to send in their report, and plans as soon as possible.

Messrs. Meiggs and Co. have asked Government for permission to transfer their commission for a railway from Bahia Blanca to Villa Mercedes (San Luis) to the River Plate trust and Loan Company.

EDITOR'S TABLE.

Not even the agreeable news from London about the Hard Dollar Bonds could keep people warm yesterday; but the weather was delightful, after all the rain of spring, summer and autumn, and it seems settled at last. The Don's passengers had a bracing trip to the Outer Roads, and looked in the most exhilirated spirits.

We are requested by H.M. Consul to acknowledge a kind donation of $10 which he has received for the British Hospital.

Everybody is talking of the stirring news from Brazil. It is evident that some sharp work and probable great changes are at hand in that country. A most important telegram will be found in another column.

Our old friends the Buenos Ayres Christy Ministrels give their first entertainment this season on Tuesday evening, 15th inst. The performance, as will be seen by their advertisement in another column, takes place in the salon La France, Lavalle 849, and is in aid of the funds of the British and American Benevolent Society. The troupe has had a number of new performers of great merit added to it, including a strong treble of juvenile choristers, and we can confidently predict for Tuesday evening an entertainment of greater excellence than any of the performances previously given by the gentlemen of the burnt-cork persuasion.

We call the attention of our Footballing friends to the match advertized in another column for the 20th inst.

The arrival of emigrants yesterday was the most stupendous yet known in the country. Over 3200! In three days they will all have gone up the country. The power of the country to absorb so quickly such masses of human beings is really more astonishing than the numbers in which they are coming.

We have received "M. R.'s" letter on 'Robert Elsmere", but cannot publish it, as it would inevitably lead to an answer and a religious discussion, a kind of dispute we have never allowed in our columns. We fully recognize the moderation and good taste of Mr. R.'s letter, but prefer to be on the safe side.

In view of the tremendous revelations of the Finance Committee of the Municipality, there is a general opinion expressed that Lord Mayor Seeber would act prudently in postponing all his grand improvements till times mend a little: as with gold at over 60 per cent premium and the necessartes of life at such an extortion price, even another half turn of the taxation screw might produce consequences quite new to us in this part of the world. No further taxation in this city is even to be thought of. Madness lies that way.

The Athletic Sports of the Flores Collegiate School take place next Thursday. Great interest has been shown for them, and the list of prizes is very large. Amongst the donors are Messrs. Y. C., Ed. and James Zimmermann, W. Graham, J. C. Gifford, F. Stearn, Mrs. Zemborain, Messrs Mackern and McLean, A. Gebbie and Co., John Grant and Co., and many others The prizes will be on view at Messrs Grant's Library, Cangallo, for a few days this week. The Sports will take place on the old Polo Ground, Flores, and the Band of the Cuerpo de Bomberos will attend. There will be a lunch to the members of the Commission on the ground.

We find the following paragraph in the *Springfield Homestead*:—"Michael Austin of Crimnell, Ia., who registered at Cooley's Tuesday night, is the unanimous choice of the Iowa congressional delegation as Minister to the Argentine Republic and will probably receive the appointment from President Harrison before long. Mr. Austin is a member of a firm of manufacturers who shipped 80 carloads of agricultural implements to Buenos Ayres last year. He formerly lived in Worcester and Belchertown and was a member of the 21st Massachusetts regiment during the war."

Through the kindness of a Chilian subscriber we have added a portrait of our distinguished countryman Mr. Pat. Egan, the new United States minister in Santiago, to the already valuable collection of celebrities in the *Standard* Picture Gallery; also a sketch of the Chilian Pavilion at the Paris Exhibition, which has a very pagoda look about it. The Gallery is open daily from 1 to 5. Subscribers and constant readers free: casual readers conventional terms: public not admitted.

Dr. Davison had an interview yesterday with Dr. Chavarria, President of the City Improvement Board; he also published another very severe letter in the *Prensa* about the Bateman Works.

The Samoan Conference is not unlikely to break up. Uncle Sam is evidently pretty considerably riled at John Bull and his German cousin having got the better of him so far in the negociations.

Punch's cartoon about the Sugar Convention, with Dr. Worms administering a spoonful of sugar, with medicine in it, to Master Johnnie Bull, is very good—the best for some time. Johnnie is likely to get worms from too much sugar.

The meeting of the Corporators on Friday was not so lively as the thundering report of the Finance Committee ought to have made it. Mr. Cranwell left the chair and said that on Monday (to-morrow) he would fully explain all the acts of his "pro tem" administration. Three accountants were named to examine the city accounts from 1887 to date. The Lottery Loan for ten millions was sanctioned, so it is on the cards that boys yelling "para mañana!" may be again heard in the streets, as there is no law to prevent Lottery Bonds, Cedulas and gold being sold by public crier, though the latter cannot be sold on the Bolsa.

We call attention to the advertisement about Mr. Henry Pollex, whose friends in Liverpool have not heard from him since Christmas and are rather alarmed about him.

Romeo and Juliet will be repeated to-night at the Politeama. Society appears quite enthused about this opera. All who heard it on Thursday night were enraptured.

An interesting young girl, member of a well-known family, disappeared from her parents' house late on Friday evening, and it is feared she may make away with herself, as she is not quite right in her head. An uninteresting "sugeto" in Calle Lima tried to cut his own head off, but failed, owing to the knife being blunt. It is supposed that a scarcity of "blunt" in his pockets led the poor man to the rash act.

To neutralise the smell of cabbage while boiling, cook onions at the same time. If you wish to destroy the smell of the onions, burn the house down.

Land seems to be booming in a decidedly lively manner at Necochea, and some person or persons as yet unknown to fame will certainly burn their fingers, and perhaps their toes also. The price of a square of land there last year was 2,000 nats. now 10,000 is the figure asked.

A swell swindler was detected yesterday; while trying to "do" the Italian Bank by means of two forged cheques, for about 1,700 dollars. He smelt a rat, however, while the cheque was being examined, and saying he had forgotten his tooth-pick at the Grill Room, and was going to step across the street for it, he stepped a good deal farther, and is still "non est".

The Committee of the Young Men's Association of the American Church informs us that the entertainment that was to have been held to-morrow (Monday) evening, has been unavoidably postponed.

Don't forget the amateur performance to-morrow night of the "Two Roses" at the Chalet Theatre, Florida Gardens. The performance will commence sharp at 8.15. Those who have not already secured seats had better snap up the few remaining ones. Special trams and trains will start after the performance for all parts, as per advertisement in another column.

The Board of Public Works has reported unfavorably on the Eigendorf proposal for an underground tramway in the city. The B.O.P.W. has done wrong on general principles. The traffic in this city is getting so choked that a couple of underground tramways and railways, or perhaps half a dozen, will be required within the next ten years.

Uruguay has replied that she will feel much pleasure in accepting the kind invitation of the Rural Society to its next Exhibition. This was to be expected. A refusal, after all the recent visits, dinners and balls, at which half fashionable B. Ayres lost its best hats and top-coats in the cause of republican fraternity, would have been little short of a "casus belli."

The mad dog, for some reasons, does not like the taste of a policeman's legs, and rarely bites any member of the force. Yesterday, however, ex-commissary Caro, while walking in Calle Reconquista, felt a dog's teeth suddently meet in his pantaloons. Fortunately, he only received a slight scratch of no consequence.

The Pension debate in Congress on Friday revealed the interesting fact that out of 1125 persons enjoining pensions, no fewer than 800 have asked for an increase The end of the talk was that an increase. of over half a million a year was added to the Pension burden of the country. This is truly tremendous.

A Kansas colleague supplies the following interesting essay on Japanese noses.—"The presence in the city of Mr. Lee Mapano, a Japanese, whose nose furnishes him the means of earning a livelihood, Mr. Mapano being a smeller of tea, recalls the fact that in Japan the nose is the only feature which attracts attention. The nose determines the beauty or the ugliness of a face according as it is big or little. This is probably due to the fact that difference in noses constitutes about the only distinction between one Japanese face and another. The eyes are invariably black, the cheek bones high and the chin receding. In Japan a lady who has a huge proboscis is always a reigning beauty and a reigning belle. There are few large noses among the natives, and lucky indeed is he or she upon whom nature lavishes one. In all Japanese pictures representing supposably beautiful women the artist turns himself loose on the nose."

Those who, like ourselves, have firm faith in River Plate wines, will feel interested in the following paragraph from the *M.V.R.P. Times*: "Although a check has been given to vine planters by a total loss of last year's crops, we find renewed activity being displayed in this industry, which no doubt one day will be of great importance, as it is a well known axiom that any country where the vine flourishes in a perfect degree must eventually become a large producer of wine. Many 'vignerons' here have obtained their vine cuttings from the best vineyards of Europe, the Pineaus from Burgundy, the Syra and Roussane from Hermitage, the Cabernets, Sauviguons and Mal-bec, from Bordeaux, the Chasselas from Switzerland, the Reislings from the Rhine, the Tokay from Hungary, and the Grenache, Pedro Jimenes and Verdelho from Spain and Madeira, besides local variations from European stock."

CONGRESS.

SITTING OF SENATE.

The Hon. Senators had an easy time of it yesterday. It was bitterly cold in the hall, in spite of the efforts of the two stoves to keep the house warm, and the absence of the heat of debate made things colder. The galleries were nearly empty. The public evidently takes but little interest in Congress affairs at present. At 3 p.m. sharp the hon. gentlemen entered, took their seats, and smiled self-complacently at the meagre order of the day, which solely comprised a few petitions for pensions. These were granted immediately. The Secretary began by reading out an application by Messrs. Serantes & Co. for right to build an underground railway from the Riachuelo to Plaza General Belgrano. This right they claim on the ground that it is the necessary complement of their concession for a railway between this city and La Plata, which concession, as our readers are aware, has been already sanctioned by the Provincial Legislature. Four applications for pensions were then read out and sent to committee for consideration. The order of the day was read and approved, as already stated, and the hon. gentlemen withdrew, after an inglorious half hour's work. The Deputies sit on Monday, but we fear the Finance Minister's projects will not be ready before the proverbial "middle of next week." In the way of business, the Deputies, so far, have not shewn themselves as idle as their elderly co-legislators. Business done yesterday amounted to nothing.

OPEN LETTER FROM MR. E. CASEY

THE ORIENTALS AT HOME.

(From the Montevidean Independent)

C. W. Sanford Esq.
London

My dear Mr. Sanford.

I promised you a letter about the Orientals, as the Uruguayans are called, and am almost sorry I did, as the subject is a difficult and delicate one.

Before coming to Montevideo I thought I knew something about the Orientals, after being here a month I thought I knew all about them, and now I find I know very little of them.

The Oriental is the most extraordinary man on the face of the earth. When speaking of the Orientals, I mean the inhabitants of the country, including all foreigners with ten years or more residence here. This country assimilates strangers to its ways and customs, and they become more Oriental than the native.

The Oriental is goodlooking, intelligent and brave, he is essentially a fighting man, and I must confess (thanks to my Celtic blood) that I admire a fighting man; he is industrious and economical, and always saves up some money. He is the most suspicious (descontado) man existing, and feels hurt if others outrun him in fame or fortune, he criticises his neighbours severely and is certainly not charitable in judging others.

Divided amongst themselves the Orientals all join together against a stranger, if he is getting too strong.

Owing I suppose to the civil wars, the form of Government and the former great fluctuations in value of property, the Oriental is a pessimist such as you have not met anywhere, he has no faith in himself nor in the commercial future of his country. He has great respect for a Foreign Bank or Company, but is very severe on his own institutions. He will attack the National Bank or Compañia Nacional tooth and nail; but will tolerate anything from the various foreign Agencies called Banks, forgetting that the National Bank means national wealth, greatness and credit.

When you arrive here and bring good introductions you are generally told the following "Don't invest your money in the country; we are a dangerous people, we are bad (malos), all you see going on is speculation" Farsa de los Porteños, wait for six months, just wait. This happened to me and nearly all my friends so, it is not exaggeratted.

Nearly, all Foreign Capitalists have failed here. The Orientals have lived on Foreign Capitalists, boiled them down and Extracted the marrow of their bones.

The Oriental is the most credulous man known, but he will believe what is incredible and doubt what is palpable.

This will rmind you of Marryatt's story of the sailor boy coming home Jack said his mother "tell me what you saw in your travels."

"Well mammy, in Jamaica I saw hills of Sugar with streams of rum running between them. "Right Jack." I know that all the Sugar and Rum come from Jamaica. "And mammy in the Red sea we pulled up the anchor with an old chariot wheel hanging to it." "Right Jack" one of Pharoah's most likely, what else?" "I saw a mermaid one night and spoke to her, but she only stared and did not appear to understand." Of course Jack I know there are mermaids, nothing strange in that, what else? Jack paused, he could not invent greater crammers and feeling ashamed of juggling his mother, wished to tell the truth.

"Mother I saw a flying fish." "Get out you ungrateful dog, to come home and tell lies to your poor old mother, a fish to fly indeed, go to bed sir and dont speak to me again to night." Something similar occurs tome. I can talk the dxxxest nonsense, offer to bring 500,000 immigrants in one year make a Railway to Peru, make the port for nothing, etc, etc, etc, and be believed, but when I say that the National Company will pay 25 o/o this year, the inhabitants laugh: the only thing that I can guarantee to do and pledge my promises and official declarations, stamp me a liar and blackguard; this is the one thing they won't believe.

The newspapers here never attack a Foreign Bank or Financial Firm, but they will do all in their power to blacken and injure one of their own. It is incomprehensible. We have to wait for that national pride which will come soon I hope, when Orientals will say, we want our own Banks, Commercial Houses, Joint Stock Companies and Railways, we are tired of paying tribute to London Boards, and Paris ones and others.

Now understand me clearly, the Oriental's virtues are his own, his faults have been forced upon him and he will grow out of them.

The man who is brave, industrious and honest must come to the front eventually; pessimism will be rooted out, out chucho (march fever) from a well drained district, the Orientals will be a great people, and they'll have more territory before you and I die, please God

Of all the foreign communities the one that takes the gloomiest view of everything is the British. It shows how the influence of bad Government and oppression can break the spirits and energy of a great people.

The Britisher has shaken his head at all the movements going on, he sells his estancia, he neglects to buy a site for his commercial house, he goes gloomily to his club and damns the country. He is gradually losing his commercial standing, and when he wakes up will have to work very hard to overtake the Spaniard, Argentine, Italian, German and French.

Here, as in the Argentine Republic, the Italian is leading. Without the Italian, Argentina and Uruguay would be poor countries.

I cannot finish this without saying a word about the Oriental woman. As persecutions and trials break down the man, they elevate the character of woman, and the Oriental lady is an ornament, a treasure to her country.

Modest and unassuming, well-bred, careful of her house and family, making her own and her children's clothes, (and doing it as well as any dress-maker,) a beauty in the theatre, a marvel at a ball, the Oriental lady captivates all intelligent foreigners. Surely a country producing such mothers of families cannot be lost, it must have a great future.

Yes, sir, I again ratify what I said to you before about this country; don't doubt it, buy its securities, and then—buy more, and then—keep them. My next letter will be about the "History of the National Bank."

"Adios". Yours sincerely
Edward Casey

RACING NOTES AND ANTICIPATIONS

To-day's card at Belgrano, large as are the entries, is extremely likely to fizzle down into infinitessimal proportions, with the possible exception of the sprint race, which has been the sole medium of speculation during the week. Caustique is now established a hot favorite from Phidias and Pasha, and on form should hold them perfectly safe. The resuscitated Juggins, who proved such a bugbear to the English division last year on the score of his fluky victory over Iudecis at Lanus, has been steadily backed, but we can hardly conceive that he can be dangerous. We do not fancy Riviere or Colibri, although the latter should attain his usual situation. What a loss for this plucky little horse that there is not any place betting in this country! We now come to an animal who is literally pitchforked into the handicap, and one who can hardly lose the race, viz, Signet, whom we confidently regard as the winner. Our other anticipations are;

Premio Corrientes: Stella
" Preparacion; Alicia
" Entre Rios; Cormeilles with Nelly as a good outsider
" San Luis; Stud Capt. Lopez or Nacional.

Amongst the distinguished arrivals of the week are Acme and another, both destined to become famous in Argentine Turf circles.

The Grand Prix de Paris is run to-day, and although we have no late doings of any of the cracks engaged, we have a fancy that Maypole or Laureate will be mentioned per Galveston to-morrow.

BRITISH IMMIGRATION.

June 12th 1889.

Mr. Editor,

Mr. W. Proctor, your correspondent of to-day, has hit the right nail on the head; undoubtedly the reason he assigns for the failure of British immigration is correct. When a Britisher arrives in a progressive country he cannot be expected to join in the train of progression, unless he has the assistance of a mother-country's tongue, at least for a start, to make the path smoother.

Then as regards the literature circulated in England, as Mr. Proctor remarks, it is as false as it is base; though one cannot help but think how lamentable it is for an "educated" Englishman, above all, to be led away by such "strawberry and cream" statements.

However, if after the immigrants arrive here, they survive the five days "drill" at the Home (?) their greatest hardship is over, for there are always helping hands ready to assist sober and industrious Englishmen, at the British Immigration Society.

Yours idly,
J. Henry Blake.

CRICKET.

CORDOBA C.C. v. DEAN FUNES C.C.

On Saturday last a match was played between the above Clubs on the Cordoba ground, on the occasion of the visit of Mr. Jackson, jun.

Notwithstanding the coldness of the weather, a pleasant day's cricket was enjoyed, the home team winning by ten runs in the first innings.

LA FLOR DE LOS CAMPOS
en el Pueblo del
SALTO
Ensanche de su ejido
El mejor campo para agricultura.

Localidad de la mas prospera situacion actual de porvenir inmenso.

4224
Hectareas
De CAMPO incomparables
DIVIDIDAS EN

86 chacras compuesta cada una desde 30 hasta 70 hectareas y 59 quintas compuesta cada una desde 6 hasta 15 hectareas,

EL DOMINGO,
23 de Junio
A LAS 12 DEL DIA

En el Hotel Nacional del Salto

El tramway rural que esta construyendo. Los ferro-carriles de la provincia y el ferro-carril concedido a Wilkinson llegaran en breve al pueblo del Salto.

Estas tres grandes vias de comunicacion cruzaran estos terrenos.

Base para la venta
LAS CEDULAS

Repartidas a cada lote con arreglo a los planos en circulacion.

Ventajosisimas condsciones de pago.

Tomando el comprador á su cargo las cedulas pagará la diferencia entre el valor nominal y el efectivo de las mismas con mas excedente de precio sobre la base en la forma siguiente:

Una tercera parte en el acto de la escrituracion.

Una tercera parte á 3 meses de plazo.

Y una tercera parte a 6 meses de plazo con letras que recibira el banco de la provincia, debiendo ser garantidos por los Sres. Mallmann y Ca.

Escrituras gratis
Domingo, 23 de Junio
A LAS 12 DEL DIA

En el pueblo de Salto, hotel Nacional.

PLAZO PARA LA ESCRITURACION
30 dias.

Se exigira el 5 o/o de sena al firmar el boleto.

Por orden del superior gobierno de la provincia y para destinarlos al ensanche del ejido de este importante pueblo, remataremos al mas alto precio, sobre las bases establecidas, estos esplendidos terrenos.

Ocasion como pocas o ninguna, para los agricultores que quieran comprar tierra que no tiene precio, por su producto extraordinario.

Los cereales se producen en el Salto como en ninguna parte, pero ademas de esto, estos terrenos tienen una especialidad que los hacen superiores á todos los demas de la provincia.

La semilla de alfalfa que se cosecha en el Salto es de calidad extra y es solicitada en el mercado a precios un 30 o/o mayor que la que se produce en otras partes.

Principalmente a la cultura de esta semilla forragera, debe esta localidad los adelantos prodigiosos que ha realizado: Merced á sus propias fuerzas sin siquiera vias de comunicacion.

Calculese lo que valdra estas tierras, lo que tengan dos ferro-carriles y un tramway que las cruze.

Al Salto! pues los agricultores a comprar tierra, superior, barata y con desembolso insignificante.

Por mas datos á nuestra casa San Martin 153 y Peru 261.

Nota—Los trenes salen del Once de Setiembre, a las 7 a.m. y a las 3 p.m. hasta Arrecifes y de alli, carruaje, galera o caballo hasta el Salto.

Approved by decree of the National Goverement dated 30th March 1889.

Authorized Capital $5,000000, divided into 5 series of 10 000 shares of $100 each

Payments 10 per cent every 3 months, like a Savings Bank.

When the 1st series is subscribed, the 4 remaining series will be offered to the public up to the 5th of June next.

The Society was started by 100 founders amongst them being 55 timber merchants of Buenos Ayres, La Plata, Rosario, San Nicolas and Montevideo, all skilled in the trade.

This is the most important and indispensable Industrial Undertaking of the country, and the one which offers the largest prospect of profit to its shareholders, from the opportunities it possesses of obtaining concessions and purchasing forests, of the richest and strongest woods requiring only the hand of the practical and scientific man and the power of capital to create the means of transport and economical manufacture, sales being sure, remunerative and easy in this Republic, as well as in Uruguay and Europe, in consequence of the natural requirements of Industry and Building. No business man or capitalist should delay subscribing, for his own and his country's sake, freeing us from the enormous annual tax of $12,000,000 now paid by us to foreigners for woods inferior to the Argentine.

ESPECIFICO DE Hayward en Polvo

The cheapest and most effectual Dip in the market.

It costs a fifth of the price of Tobacco Dips.

It is the easiest of application, cold water only required.
It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.
It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.

See Testimonials from Flockowners in the Argentine Republic.

Manufactured by TOMLINSON & HAYWARD, Lincoln, ENGLAND.

Established upward of 45 years.

Sold in cases containing either 80 small, 20 medium, or 10 large packets. Each case makes 1600 English gallons, or 1900 Galones Argentinos.

Business at the first hour was brisk all round, but there was no departure from the groove into which shares have settled down, and there will be none probably until close on the liquidation, when the bulls have to measure their resources with the "descubierto." National Bank Shares opened at 265.50 for end of month and closed firm at 266, but for end of July the shares were weaker, opening at 265.50 and closing at 265. Cedulas were weak all round, a fact much commented on in the market, as it is perhaps the only genuine investment stock quoted with fixed rates of interest, and there is a pronounced belief that unless a strong curb is applied for say two years to all further issue, this splendid stock will become still more depreciated and be a drug in the market. Constructors kept firm at 137 for cash and 137.50 for end of month, but both Scrip and Obligations were a little weaker. One lot of 100 Catalinas Shares was done for end of month at 161, and a lot of 100 Sud Americano Shares changed hands for cash at 105. Credito Real kept firm at 157.50 cash and 159.50 for end of month. Pobladora Shares opened at 189, and closed at 190.50, and the Pobladores Railway Scrip also improved to 59.50 for cash and 61 for end of month. Little was done in the other stocks.

The sale of 9½ leagues of land in Tres Bonetes, facing the Bahia Union, and close to the Colorado, for ten thousand dollars per league is reported; seller, Mrs Grigg; buyer, Mr. E. T. Mulhall. The cattle, mares, horses and implements on the land go in in the price.

Ms. Anderson, manager of the London and River Plate Bank, who arrived back from Parana and Santa Fe yesterday, was welcomed. He passed through the colonies and reports most favourably on everything he saw up country.

Buyers of Banco de Italia y Rio de la Plata shares were offering to-day 280 gold, but no sellers. We hear that the business of the half year was splendid, and the usual 10 per cent gold for the six months' dividend will be paid, besides a large amount set aside to the reserve.

The statutes of the Canalizadora del Riachuelo were handed round to-day. We have already given all particulars of this concern, which is a foster-child of the Pobladora Company. The shares are payable as follows: 10 o/o on subscription, 10 o/o on approval of statutes, 10 o/o at 90 days from the starting of business, and a further 10 o/o at 180 days from same period, the remaining 60 o/o in 10 o/o calls at discretion of Board, with 30 days' notice.

A passenger arrived in the Mount by the Reina Maria Cristina, has been caught with 200,000 dollars in forged Brazilian bank-notes, which it seems he intended to pass off on the frontier.

The Royal Mail packet Don cleared to-day, and it seems that she takes only £70,000 in specie, a very much smaller amount than was anticipated, but it was said on 'Change that she takes large amounts of both paper and gold Cedulas, and upwards of five thousand La Plata Mole Shares.

The gold premium fluctuated violently to-day, dropping in the morning to 163.80, or say over two points on yesterday's closing rate, and closing in the evening at 164.30. The improvement, however, was most manifest, and was generally attributed to Minister Varela's latest measure converting the Hard Dollar Bonds into 3½ o/o gold bonds, which will keep here a large amount of gold that would otherwise have to go, had the redemption been persevered with.

Business at the second hour was similar in every respect to that of the morning, there being no new features in any of the stocks. Pobladora Railway Scrip was very buoyant, owing to the news that the Company has sold the railway concession for £170,000, which of course brings down the cost of the land they hold to little or nothing. La Plata Market Scrip fell off to 36, and Pobladora Shares were a trifle weaker at 188 for end of month. National Bank Shares closed at 266 for end of month and 265.50 for end of July. All the other stocks were firm, with the exception of Provincial Cedulas, which show no signs of even latent buoyancy.

Rosario advices announce that the only banknote to be had there is the Cordoba note, which is rejected all round, thus creating a great strain in all business transactions.

The latest trade reports of the River Plate attract very great attention in London, and the papers comment most favourably on them; 14 millions excess of exports over the previous year, and 45 millions excess of imports, show a vitality in the Plate, which has surprised some of our London colleagues. Attention is also drawn to the increased export of wool, which they put down as follows:

	Tons
Wool export, 1888	131,714
" " 1887	109,165
	Skins
Sheepskins export, 1888	3,402,598
" " 1887	3,208,337

Our London colleagues measure the march of the River Plate by these tables; they say nothing, however, about the still more flattering returns of immigration.

Messrs. Hodge and Herbage sent round to-day large and splendidly-printed cards announcing the starting of their firm in place of G. J. Hodge. The card contains, in addition to a list of the engines, boilers, wood and iron-working machinery, thrashers, and engineers' tools and necessaries generally, a very fine programme of the Paris Exhibition. Mr. Herbage, after a short absence in England to make arrangements with manufacturers, returned to enter into partnership with Mr. Hodge, whose former business of engineers' fittings and necessaries will be continued upon a wider basis at Rivadavia 721.

Gibson Brothers have sent a herd of 1200 head selected cows and heifers, from Ajo to their estancia "Dos Chañares" in the IVth section of the National Territories of the Central Pampa. The distance is about 180 leagues as the crow flies, though probably greater going by the road and watering places. The troop took forty days to arrive, the total loss on the road only being thirty five, and the stock was reported in excellent condition upon arrival. Gibson Bros. sent a flock of Lincoln sheep to the same place last year, which is doing well.

The Banco Nacional discounted yesterday 1,020,000 dollars in paper, but the Provincial Bank did nothing in discounts, as there was no quorum, and nothing will be done till next week.

The Constructor of La Plata Bank pays a provisional dividend of 6 per cent for the half year, payable from the 15th to the 25th July.

No less than 3623 immigrants arrived in port to-day in five steamers, as follows:— Leerdam with 553. Reina Cristina 280, Perseo 890, Montana 860, and Berlin 680. Of the latter 540 come with assisted passages from Bremen.

Mr. Bieckert wired to Dr. Carcano to-day denying the report that he had sold the cable concession, which he says that, at all events, for the present he has no intention of selling. Mr. Bieckert adds that the matter has still to go before Congress.

Advices from the Mount announce that 29,878 Obras shares lately amortized were burnt on the Bolsa to-day, and it seems that the quotation of this stock, which ran down to 93½, finally closed firm at 1 o/o premium.

It is said that Mr. Charles Gowland has resigned his post as manager of the National Bank, and will be replaced by Mr. Jowers.

Mr. B. Victorica, at present in this city leaves shortly for the Mount in representation of a syndicate with a large capital which is about to construct a network of rural tramways in the Uruguayan Rebpublic.

From Paysandu it is announced that a Montevidean capitalist with 800,000 gold dollars at his disposal is buying up camp properties on a large scale, which it is intended to colonize.

It will be well that the estancieros of Paysandu should ponder over Mr. Casey's advice of raising long woolled sheep. Well grown 'capones' are scarce, and we are told on good authority that Messrs. Nelson will send up a special steamer to bring down 1000 cross bred sheep, so great is the demand for River Plate mutton in England. The Department of Paysandu has used the Romney March blood principally, as this breed seems more adapted to our camps.

Buenos Ayres city is not the only part of the Republic that is going ahead. In the interior provinces progress, although not so gigantic, is if possible more accentuated and pronounced. Cordova has quite grown out of its learned self, and Mr. Pascual Hill, who returned last week from a business tour, says that the Plaza Juarez Celman is quite equal to its Parisian prototype "La Place de la Concorde."

We note in a late issue of the *New York Commercial Bulletin* the report of a meeting called to foment and stimulate the United States trade with South America, a letter being read from President Harrison, commending the objects of the meeting, and speeches made by Mr. W H T Hughes and Mr. E A Hopkins, both well known in this market. The meeting was very numerously attended, and the following gentlemen were elected to serve on the Spanish American Commercial Union Association until May next:—

Board of Directors— J. M. Ceballos, President; W. H. T. Hughes, First Vice-President; J. M. Muñoz, Second Vice-President; C. N. Jordan Third Vice President; J. F. Plummer, Fourth Vice President; Ed. Gogorza, Treasurer; F. G. Pierra, Recording Secretary; S. Perez Triana, Corresponding Secretary.

Antecedentes

El Sr. coronel D. Carlos Gaudencio, dedicado en la republica oriental del Uruguay á diversas empresas mercantiles, concibió un dia el proyecto de fundar en Montevideo, un gran establecimiento balneario con todos los elementos precisos para atraer la "inmigracion veraniega" de Buenos Aires, que se cuenta por millares.

Al efecto, hizo construir en "ciento sesenta dias," bajo su direccion un establecimiento de vastas proporciones, en el barrio conocido en Montevideo por Playa Gounoulhiu, y todos los que visitaron durante el verano pasado, la capital vecina, han estado de acuerdo en que esa casa de baño honraría á cualquier ciudad americana o europea, que lo tuviera.

El exito alcanzado en Montevideo, sujirió al coronel Gaudencio la idea de establecer en Buenos Aires, su ciudad natal, otro establecimiento balneario, pero, en mas grande escala que aquel, y que sobre todo, ofreciera al publico bonaerense la extraordinaria ventaja de tener baños de "agua salada," dentro de los mismos limites del municipio.

Con estos propositos, se presentó a la Municipalidad de la capital, solicitando un extenso terreno municipal para realizar su proyecto, que ya no se concretaba a baños solamente, sino tambien a otras empresas igualmente utiles, y positivas y necesarias.

Despues de corridos todos los tramites del caso ante la Intendencia municipal y ante el honorable Concejo Deliberante y debidamente examinados los planos por la oficina de obras publicas de la municipalidad; se le acordó al coronel Gaudencio el terreno que solicitaba, los privilegios que pedia y todas las facilidades que son indispensables para el planteamiento de nuevas empresas.

La concesion

Por el contrato o sea la escritura publica extendida ante el escribano D. Carlos de la Torre con fecha 22 de Abril de 1889, y firmada por el Sr. Intendente Municipal D. Guillermo A. Cranwell y su secretario D. Eduardo P. Duran, por una parte, y de otra el concesionario coronel D. Carlos Gaudencio, la Municipalidad le hace á este las concesiones siguientes:

a) Un terreno municipal situado en el Paseo de Julio, entre las calles Callao, Ayacucho y Junin, con fondo a la ribera, y cuya superficie mide Cincuenta y un mil veintitres metros cuadrados, para usufructuario durante ochenta años, construyendo en él los baños y las otras instalaciones que se mencionan mas adelante.

(b) La facultad de colocar, cruzar y arreglar el municipio, las cañerias que se necesiten para el establecimiento.

(c) La exoneracion de impuestos municipales por ochenta años a los baños y demas instalaciones.

(d) La autorizacion para efectuar arreglos con las empresas de tramways, si le conviniese que estas prolonguen sus lineas hasta el interior del establecimiento.

(e) El permiso para establecer en el mismo terreno en la parte que no ocupen los baños, cualquiera otra clase de construcciones, como gimnasios, establecimientos hidroterapicos, jardines para conciertos, casas de familia, de vecindad y de negocios, mercado, teatro,etc.

(f) La Municipalidad declara derogados las ordenanzas y resoluciones que se opongan al cumplimiento de esta concesion.

Tales son las "concesiones" que encierra la "concesion" referida.

Ahora para que se tenga un concepto exacto de ella, veanse igualmente las obligaciones que impone.

(a) Concluidos los ochenta años, que es el plazo de la concesion, los edificios, cañerias y demas dependencias que se encuentren en el terreno cedido por la Municipalidad, pesaran a este corporacion sin que el concesionario ni sus sucesores tengan derecho a compensacion alguna.

(b) El concesionario debera presentar a la Municipalidad los planos de cada una de las construcciones que proyecte, para su examen y aprobacion.

(c) El concesionario se obliga a abrir gratuitamente, dos dias por semana, la seccion de baños destinadas a las clases obreras, y a cobrar en los demas dias de la semana un precio no mayor de diez centavos nacionales, por persona, en la misma seccion.

(d) El concesionario empezara las obras inmediatamente que este en posesion del terreno (1) debiendo concluirlas dos años despues, con multa de dos mil pesos moneda nacional mensuales, si no estuvieran terminadas

(e) El concesionario, pagara una multa de cinco mil pesos nacionales por cada mes de demora, si a los tres años de firmado el contrato, no funcionasen los baños de "agua salada."

(f) El concesionario se obliga a dar gratuitamente agua dulce y salada a los hospitales, casas de beneficencia y establecimientos municipales, siempre que la Municipalidad pague los gastos de cañeria y de provision.

(1) Ya esta en posesion del terreno e inauguardos los trabajos.

Transferencia de la concesion

Como lo dice el contrato de venta de la concesion, cuyo texto se publica junto con los Estatutos de la sociedad anonima que se formó para adquirirla, el concesionario le ha transferido todos sus derechos, y por consiguiente es una entidad "colectiva" y no una entidad "individual" la que se encargará de llevarla á cabo.

No hay para qué entrar en explicaciones acerca de esto, porque es bien sabido que en materia de empresas comerciales, industriales y especulativas, de cualquier clase que sean, los recursos, la accion y el credito de "muchos," son mas que los recursos, la accion y el credito de "uno solo."

Plan general

Los 51,000 metros de que se compone el terreno cedido por la Municipalidad, se dividiran, como se vé en el plano que acompaña á este prospecto, en dos manzanas grandes y cuatro chicas.

En las primeras, señaladas con los numeros 1 y 2, se construiran los dos grandes establecimientos balnearios; uno de primera clase, y otro de segunda. En el piso alto de cada uno de ellos, se edificaran 200 casas para familias, de cuatro a ocho habitaciones en cada casa, dotadas de aguas corrientes, de luz electrica y servicio de limpieza dos veces por dia.

En las manzanas señaladas con los numeros 3 y 4, se edificaran tres pisos: el primero, para casas mixtas de comercio, negocios en general y con un anexo interior para familia, y los otros dos pisos exclusivamente para casas de familia, formando un total de ciento cuarenta y cuatro casas.

En el centro de la manzana numero 5, se construirá un teatro de verano, con departamentos para cafés, restaurants, confiteria, jardines, etc., y un chalet de dos pisos en cada angulo de la manzana.

En la manzana num. 6, se construirá un mercado modelo y las instalaciones de aguas corrientes, luz eléctrica y limpieza.

Resumen

Dos grandes establecimientos balnearios de agua de mar y dulce.
Trescientos cincuenta y dos casas para familias.
Un mercado.
Un teatro.
Una instalacion de luz eléctrica.
„ „ „ aguas corrientes.
„ „ „ limpieza.

Calculo financiero

Deliberadamente queremos ser muy reservados á este respecto, antes de que se nos haga el cargo de optimistas.

En una plaza comercial como la de Buenos Aires, donde todos tienen una nocion clara de los negocios, solo es permitido usar las cifras con exactitud, ó reducirlas lo mas que sea posible, cuando se trate de calcular resultados.

Fundados en esta consideracion, vamos á enunciar apenas el costo y los beneficios que creemos que demandaran y que se obtendrán en las empresas antedichas.

De acuerdo con las opiniones de varios injenieros y arquitectos que hemos consultado, el costo de todas las construcciones que se proyectan, haciendolas con solidez, comodidad y elegancia, se estima, mas o menos, en la cantidad de 6,000,000 pesos,

Los gastos de administracion, contados desde el 1° de Abril hasta la fecha en que deben estar concluidas las obras principales, o sean 24 meses, se estiman en 150,000 ps.

Ahora, veamos las entradas que pueden obtenerse, estimandolas en globo, porque de antemano no se puede fijar prolija y exactamente el "cuantum" de los gastos que corresponden á cada seccion:

Los dos establecimientos balnearios: $2000 mensuales, cada uno, o sea en un año	$24.000
El mercado: 1500 mensuales	18.000
El teatro: 2000 id	24,000
352 casas: 100 id c/u	422,400
	pesos 488,400

En este cálculo que hacemos, moderando bastante los rendimientos de las especulaciones que se van a ensayar, no entran para nada el alza cada vez mas sostenida de los alquileres, el incremento de la poblacion y el progreso del pais, que son otros tantos factores de seguridad y de aumento de esas cifras.

Y no se olvide, repetimos, que la explotacion de todas estas empresas durará ochenta años.

Ejecucion de las obras

Debemos decir siquiera dos palabras sobre la practibilidad de estas construcciones que se indican.

En los planos principales, que ya se han preparado, se ha tenido en cuenta lo siguiente: la mayor consistencia de los edificios; la adopcion en ellos de todas aquellas reformas que en orden de arquitectura, de hijiene y de elegancia pueda hacerse; el mejor aprovechamiento del terreno y todas las circunstancias que convengan aprovechar para su buena conservacion, su mas alto producto y el servicio que deben prestar á quienes los ocupen,

En cuanto a la introduccion del "agua salada" al municipio se han previsto ya todas las dificultades, el costo que demandara y el procedimiento que debe adoptar. No faltará acaso entre las personas que ignoran como se puede llevar agua del Océano a localidades que se encuentran distantes de las orillas del mar, quien dude de que ello sea posible, fácil y economico, pero, para los que conocen algo de las grandes obras realizadas en el mundo, analogas á la que proyectamos aqui, saben que esto es perfectamente hacedero. Asi, en el deseo de que esta parte de las obras no resulte dispendiosa, inadecuada al objeto que se tiene en vista, ni sea tampoco de dificil ejecucion, se ha encargado a dos personas competentes, uno de ellos el Sr. Presidente de la sociedad anonima "Talleres Casa Amarilla" D. Felipe Schwarz, el estudio de este asunto en Europa.

Otra faz

En la enumeracion de lo que se podria llamar el "activo," y "pasivo" de las diversas empresas que esta sociedad se propone realizar, hemos silenciado algo que sigue de cerca en importancia y en futuros beneficios á la concesion hecha por la Municipalidad.

Nos referimos á la compra efectuada por el coronel Gaudencio á los Sres. Portalis freres, Carbonier y Ca., de siete manzanas de los terrenos que estos señores van a avanzar sobre el rio, en las obras llamadas Malecon y Puerto Norte de Buenos Aires.

Estas siete manzanas de terrenos, de 120 metros de frente por 120 metros de fondo, las adquirio provisoriamente el coronel Gaudencio por el precio de 17 ps. m/n de c/l el metro cuadrado (el precio actual de la tierra en los mas apartados suburbios de la Capital) porque partiendo limites esas manzanas con el terreno municipal que posée la sociedad, se ensancha asi el campo en que deben efectuarse los negocios que ella va á realizar.

¿Cuanto valdrán dentro de breve tiempo estas siete manzanas que ha adquirido la sociedad, en absoluta propiedad, sobre el Paseo de Julio? Diganlo todos los que presencian el pasmoso progreso de la ciudad de Buenos Aires, y diganlo sin olvidar que los vendedores, deben entregarlas empedradas y circunvaladas, como las manzanas que existen entre el muelle de pasajeros y el de Catalinas

¿Cuantos negocios, cuantas especulaciones y cuantas obras se pueden desenvolver durante ochenta años en esas siete manzanas incorporadas á los cincuenta mil metros del terreno municipal? Es dificil predecirlo, porque se necesitaria la facultad de poder adivinar los adelantos que se desarrollaran en esta parte del mundo, en casi un siglo.

Por ahora, solo se puede anticipar, que, cuando los Sres. Portalis freres, Carbonier y Ca. las hayan entregado, la sociedad convocará inmediatamente una Asamblea general de accionistas y le someterá á su resolucion un plan que tiene en estudio.
